

PPG Course Maintenance

This document walks the reader through the steps in creating and editing a course marker.

Select **Courses**, existing marker records are available from the Marker: dropdown box on the left, other unallocated GolfLink Marker Mappings are shown on the right.

Creating a new Marker

Select [Create new marker](#) on the required record from the list of **Unallocated Markers**, then select [Edit this marker](#) from the **Invalid Markers** area.

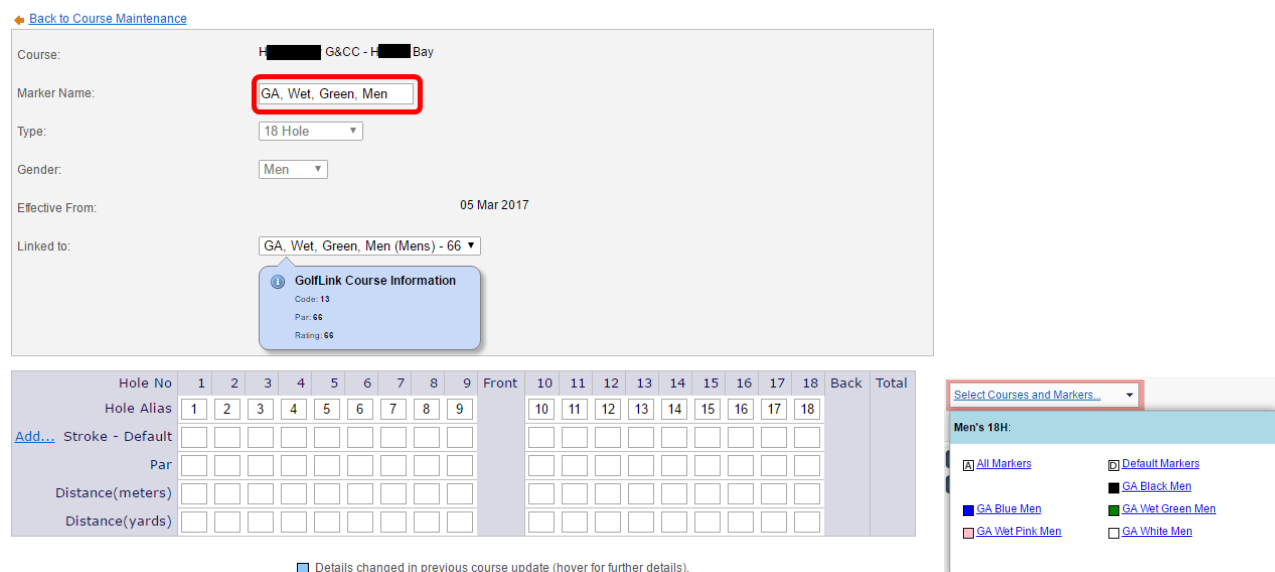

The screenshot shows two panels of 'GolfLink Marker Mappings'. The left panel, 'Unallocated Markers', has a table with three rows. The first row is 'Womens Temp (Ladies)', the second is 'GA, Wet, Green, Men, 10-18 (Mens)', and the third is 'GA, Wet, Green, Men (Mens)'. Each row has 'Create new marker' and 'Link this marker' links. The 'Create new marker' link for the third row is highlighted with a red box. The right panel, 'Invalid Markers', has a table with one row: 'GA, Wet, Green, Men (Mens) (Code:13)'. The 'Edit this marker' link for this row is highlighted with a red box.

The Edit Marker screen appears, it is suggested to at least remove the comma after the marker colour i.e. Green, the system will then use that colour code in all system marker references.

⚠ The linked GolfLink marker has a total par of 66 but the hole by hole par information suggests a total par of 0.

Editing Marker GA, Wet, Green, Men (H [redacted] Bay)

The screenshot shows the 'Edit Marker' form. The 'Marker Name' field contains 'GA, Wet, Green, Men' and is highlighted with a red box. Below the form is a table for hole data. The table has columns for Hole No (1-18), Front, Back, and Total. The rows are for Hole Alias, Stroke - Default, Par, Distance(meters), and Distance(yards). A tooltip for 'GolfLink Course Information' is visible, showing Code: 13, Par: 66, and Rating: 66. On the right, a 'Select Courses and Markers...' dropdown is open, showing a list of markers including 'GA Blue Men', 'GA Wet Green Men', 'GA White Men', etc. The 'GA Wet Green Men' option is selected.

Enter the markers **Distance (meters)**, the system will generate the **Distance (yards)** but this data is not in use in the Australian Market.

Enter the markers **Par's**, the **Total** MUST match the GolfLink Marker Records Par.

Enter the markers **Stroke 1 to 18 index's**, then select **Add...** enter **19 to 36** and enter the 19 to 36 index's.

If a Ladies marker is being built, select **Add...** again, enter **37 to 54** and enter the 19 to 45 index's, you cannot leave hole index's blank as the system requires an entry in all fields so enter those holes relevant 46 to 54 index, they will be ignored on score calculation.
